

# Marine Transportation Safety Highlights

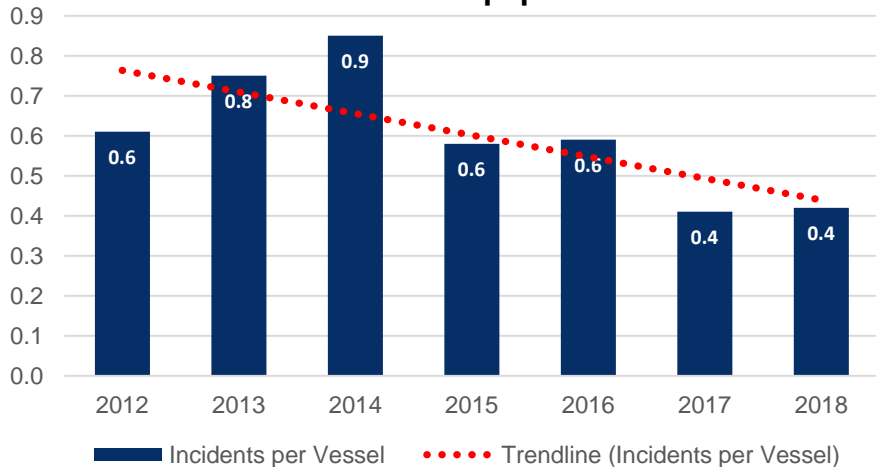

### No Harm to People\*

### No Harm to the Environment\*\*

### No Harm to Equipment\*\*\*

- Safety statistics trending down despite significant acquisitions in 2017 and 2018
- 2018 Safe Watches – 99.94%
- Creating awareness through regular safety seminars, weekly safety meetings, and safety videos
- Nearly 4,300 supervisor vessel visits and 800 senior management vessel visits during 2018
- Regular mariner proficiency assessments and cargo transfer audits

\* Recordable injury and lost time rates per 200,000 hours worked  
 \*\* Incident rates per 1,000 transfers including spills to the deck and water  
 \*\*\* Incidents per vessel = total incidents / average number of active vessels per day
